WAVE LIGHTING

- designed for self-ballasted, pin base lamps
- ensures that incandescent bulbs cannot be used
- available with photocell option

Wave Lighting offers it's initial line of GU24 non-corrosive outdoor lighting fixtures that are Title 24 compliant, Energy Star certified & Made in the USA. Country of origin information available on request.

- simplified lamp/ballast replacement
- GU24 (13W) lamps available at additional charge
- Energy Star & Title 24 compliant when used with photocell option

Wave Lighting is continually expanding its GU24 product line in an effort to bring you a variety of sustainable lighting options. Please contact us if you have any questions.

Marlex® is a non-metallic, injection molded polymer that offers long term, corrosion-resistant service at a very affordable price. This material is extremely UV stable and is an outstanding alternative to metallic fixtures of all types.
